Leader to Leader

Meet Nick Schreiber with [SLA Architects](#), a Chamber of Commerce Board Member

What made you want to become a Wichita Falls Chamber of Commerce Board Member?

My desire to become a Board Member stems from a genuine passion for contribution in my community and a strong belief in the positive impact that local businesses and community

involvement can have on our city's growth and prosperity. Being on this board helps me to be knowledgeable and informed about local activities and what I can do to help. I agree with Mr. Kitchens in that the creation and retention of jobs is the biggest driving force for a city to succeed. Helping to create jobs or helping to connect others to existing jobs is a direct action toward assisting my community.

What is your favorite place in town to eat lunch?

Parkway is always a solid go-to when I'm on the south side of town. If I'm downtown, I like Underground BBQ or 8th Street Coffeehouse.

What is your favorite thing to do in Wichita Falls?

Art Walks are always a great time. My family and I like to spend Saturday mornings downtown where we can swing by the library, check out the Farmers Markets, stop into antique stores, or just simply goof around. Otherwise, I love watching my son play in the youth leagues.

What is the most influential business book you have read?

I need to read more business books! Shoe Dog by Phil Knight was very memorable for me. And I reserve some time a couple mornings each week to read through the articles that pique my interest in the Harvard Business Review.

What advice would you give to a future community leader?

Two points. 1) It's important to join boards, but it's even more important to be engaged and contribute when you do so. Networking should only be a perk of board membership, not the primary reason. 2) Keep in mind that literally anyone can be a leader. A leader is simply someone who is willing to make a decision. Being a good leader, however, requires empathy, foresight, and a willingness to weigh options before making a decision.
